EDITORIAL.

1964 YEAR OF CRISIS--- AWAKENING AND DECISION.

As the edition is printed and prepared in Nov of 1963 , with the intent to keep ahead not only of news and events. but also to allow for Festive Holid-ays and other events which at times causes the editor to get behind, this editorial of events which are predicted for the coming year with the outline of trends which will indicate the fulfilment of the same is given for the readers to make note of and watch and where necessary prepare for them in the light of thus arming oneself for that which is to come.

Already before this year ends signs are working up which fully indicate that these predictions will certainly have fulfilment in the coming days, for it must be remembered that All such predictions do not necessarily mean a precise event on a particular day. but that they are events which oft times have a very insignificant beginning which would appear to have no cause for any concern, but as times progresses they do like a rolling stone gather momentum till it finally speeds along faster than one could think possible.

Thus starting with small beginnings. sometimes very dramatic, and startling however these predicted events move forward to a year of the greatest crisis the world has ever known .

To put it into a few words. as above it will be a year of AWAKENING OF A CON-SCIOUSNESS (Deeply stir ring the spiritual awareness of GOD'S PEOPLE)
IT WILL BE A YEAR OF GRAVE DECISIONS. FOR PEOPLES AND NATIONS.

To put it into words from the Bible IT IS THE TIME OF JACOB'S TROUBLE. and the wise who understand do not get confused as to whom JACOB IS. For find the true ISRAEL and the rest is easy .

1964 therefor we predict will prove a year of great international turmoil of unrest. Many events will prove very explosive and almost frightening Great forces will begin to take sides and show their REAL intentions. Churches will be split and sides will betaken some for that of ecclesiastic leadership and domination. and others for an aroused leadership of people who no longer desire to be ham strung along against their conscience. It will resolve itself into WHO IS ON THE SIDE OF WORLD LEADERSHIP? AND WHO IS ON THE LORD'S SIDE ?.

TERRESTRIALLY we agin say that the eqrth will shake. for the gathering momen-tum of Earthquakes, tremours. and volcanic disturbance wil oncrease , as will also unpredictable storms. typhoons. , strange weather conditions.

HEALTH. Many strange and unknown diseases will effect people especially in the larger populated areas. Plausible explanations will be given by health authorities, but very little will be accomplished in the actual cure thereof mainly through lack of knowing the actual cause. or the willingness to admit it even if they do know it.

Tension everywhere will be the keynote.

Such predictions would make one think that the editor is a very morbid fellow and were it not for the fact that he feels there is an answer to it all. he could well be accused of being a modern Jeremiah . (Even he was necessary for the critical days in which he lived)

However history has proved again and again. that for every time of great crisis. to those who have sheltered under the WINGS OF GOD. there has always been a way out. not always an easy one. but one which necessitated the "Squaring" up of ones life to the Divine standard. to attain that protection. for we have our part to play in gaining it. but nevertheless a way made for the "crossing of the Red sea. "

This then is the choice which one will have to make. to follow the plan of man made schemes for a world unity. or to abide in the promise that there would come one who would be a World Ruler. who shall reign with equity and Justice. ALL the nations. The Saviour promised long.

I would direct your attention to the great Oratorio " The Messiah" by Handel who it is said recieved this by Divine revelation. The passages taken from the Sacred Volume are so clearly outlined as to todays crisis. that it behoves every Christian to read them over and over . and see what they portend.

Most of you will recieve this possibly before Christmas, some soon after so that the very time of the year itself will tend to turn your thoughts to the Advent, but what about the Second Advent?. for which the Church and thousands of it foloword utter daily " THE Kingdom come ON EARTH"

and despite the theologians who prate and prattle otherwise IT SHALL COME AND HE SHALL REIGN. and the Angels foretold to accompany him (the Angelos-Messengers) are already preparing the way for HIS gr at conquest over the man made schems of world dominion .

This week here in Australia we have had a high church of Eng. and dignitary say that the world answer to our problem is the setting up of a man made world order. and yet the following Sunday read from the scriptures the -prophecies relating to the coming of the ONLY RULER to be of the whole world. He fattens himself and has lived high on the teachings of a book which he denys the teachings thereof. (Having a form of Godliness etc etc.)

What audacity to recieve ones living from a piece of goods one has no belief or faith in . Of course he is not alone. Thousands of such religious teachers follow his path. but the day of reckoning is ahead. and the Sanctuary will be cleansed.

The coming of the Saucers is all a part of the great plan of preparation for the great changeover. and it is because this in high authoirty KNOW that they CANNOT COMBAT IT that they are so furiously " enraged together" to make a last great attempt to fight it out with the Lord of Hosts who shall come with His chariots (aerial transportation) and his thousands of angels to defeat them . The sad part is that so many who know of the visitors from space are trying to fit their coming into the unity with world governments, not realising that the two belong to opposite camps.

Others too who possibly are looked upon as an authority, because of their contacts, and even idolised and worshipped by many of his devotees, encourage these poor adepts, to hang on their words and direct them into paths which have no basis in any Sacred Volume of Christian Faith. One can hardly expect one whose background lacks much scriptural basis to be able to understand it or more to teach its meaning. The best way to assess the value of such teachers words is "What is he getting out of it" Financially and more psychologically (his ego). For its hard to remain humble when world acclaim has been thrust upon you. and more to a man whose past was one of unknown obscurity.

This then is the DECISION which lays ahead not only for UFO students. but the whole world WHOSE VOICE SHALL WE HEED. ?. WHOSE PLAN SHALL WE FOLLOW?. that of man or of GOD. Whose Kingdom do you want to become a citizen of?. WORLD MAN MADE. with all its. conglomeration of mixed races and creeds? witch doctors. devil worshippers. Christian (so called) leaders. all mixed together in one great mess of pottage. Or the KINGDOM OF GOD AS PROMISED BY HE WHO SHALL COME?. WHOSE SIDE ARE YOU ON ?.

As for the Editor the God who was able to deliver His children from the toils of slavery (economic and physical) and make a way for them with His natural laws being brought into play at the Red sea, The one who was able to vindicate His servant Elijah. against the PRIESTS of Baal, and later take him in an aerial chariot into outerspace. (heaven) This God. as far as the Editor is concerned. IS ABLE TO DELIVER. ALL WHO TRUST IN HIM.

Reader place these words in your mind and heart for you may need them very much in 1964 to give you hope. when things around you cause all mens hearts to fear and wonder for those things which are coming on the earth.

DO NOT RELY ON YOUR PAPERS FOR THE TRUTH. they will tell you only that which they allowed to tell you as in the case of the saucers or in all matters concerning anything which may upset the plan set out to gain world dominion by the forces of darkness. Finally do not despair. for " When ye see these things come to pass (in 1964 and those to follow) LIFT UP YOUR HEADS. FOR YOUR REDEMPTION DRAWETH NIGH .

Maybe I will be classed on one of the lunatic fringe. so was Peter. when he delivered his message. They said he was mad with wine, so have all those who have stood against evil been accused. If this be a delusion and madness What a magnificent delusion. What a wonderful obsession. to KNOW that God is able to help and that you are not alone. but have the thousands of His angels to assist you in the fight ahead. Elijah must have felt very alone on Carmel. he belonged to the lunatic fringe. (The school of the prophets) many of them deserted him. but GOD DID NOT LET HIM DOWN. although he had the whole nation against him religious and civil. To be on the side of such lunatics puts one in illustrious company.

AWAKE. ARISE. for thy LIGHT is come.

CHOOSE YE THIS YEAR WHOM YE WILL SERVE. GOD OR MAMMON.

THIS IS MY CHRISTMAS MESSAGE TO MY READERS AND THE WORLD IF NECESSARY.

FEAR NOT with the events around you of 1964. put your faith in ONE WHO IS MIGHTY. and put not your trust in Princes. (leaders) nor your faith in even as I. who am but a voice crying in the wilderness.

Keep your eyes on the USA for the indications, and the trends. the great explosive bomb is soon to burst there. (CONTINUED ON PAGE 13)

UFO OPERATIONS STRATEGICALLY CONSIDERED

=====

The following is kindly translated by Carl Hoffman Sen. from the Bi-monthly publication "Gesellschaft fur Interplanetarik. "

THE QUESTION : If the operations of the UFO's in our atmosphere and in our seas can be judged from viewpoints which come from modern strategy, this question must be asked at last and at once.

Elements of an order and a plan are undoubtedly recognisable in their flight and diving manouevres .

It is a fact , that UFO's appear in a certain geometrical order moving in so called " Greater Circles" These are orbits; its radius pointing to earth's centre. Strategy must not of necessity be of a military character. There is also a strategy of moral penetration ; of a cautious guidance ; of carrying through the good. Crusaders and Orders might be credited with such a strategy .

Dr. Perego of Italy is of the opinion , that UFO's are employing such strategy as a symbolic warning in their flights, which are applied to the existing political situation between East and West, at a time. The deciphering of the riddle can only be successful if, i.g. the head of a Security Service; is in the (position) and possession of all the facts of the world situation. Dr Perego not being in such a position can only guess and combine. It is temptingly evident to view UFO operations as an attempt to turn the scales and force us to keep peace. UFO's keep practically every important military; traffic, or industrial point on earth under control, while the UFO's operating under water detect and encircle, sooner or later, every formation of warship.- It is an iron and yet elastic embrace, of war-potentials of both camps and any place.

This fact nourishes speculations of all sorts about the inner cause of the presence of these strangers. In an old chronicle we can read that they (the UFOs) have been observed since ancient times at every neuralgic point; at every critical political situation they were on the spot . - In those times when people believed in signs and wonders they appeared to them to represent battle- guiding Gods.

It seems that they were more interested in the atmosphere of the deciding events than the occurrence themselves , and these perceptions fit exactly into the complete picture of their phenomenon of keeping in the background.

" Action through presence : " So could their strategic motive be titled.

They are today a factor in the multidimensional chess- game of the powers of the world, and this without a doubt . It has not yet been possible to prove that they are also a highly moral factor, for the proof there are not enough points known what their exact intentions are .- But we are permitted to hope for the best, or else it would be extremely bad for us all .

Following it will be tried, to summarize in short the strategic elements of the UFOs.

POINT 1. The Ufo .director-pilts are specialists in amphibian operations, as has been observed on the coasts of the Pacific and the South Atlantic.

2. They have disvalued airplanes and subs which carry atomic weapons and out manouevred them .

3. They are unhampered masters of the only place in question, which through its strategic position is most suited for the establishment of a world supremacy; The Inner Arctic.

UFO Operations considered. Cont 2.

4. They are ever present, and inbetween landing in areas where East and West meet, i.g. in Austria.
5. The only effective weapon in world powers possession against smaller UFOs are very strong and powerful Radar Stations, which force them to come deeper down and so engage them in an energetic duel.
6. They are capable of paralysing the electrical energy supply of all countries at any time.
7. They are trying sporadically to find a subjective nation through patronization of contact-literature containing anti-atom test propaganda; i.g. present attempts to banish atom tests.
8. They are in possession of LASER weapons and LASER communication means, i.e. energy transmission through coherent light .
9. They are capable during one single night to establish in an underdeveloped area a technical force, which would be qualified to determine the political development on this continent, where that area happens to be.
10. They would not be able to beat or dominate an army of not ,echanized or little mechanized infantry which is distributed in small units all over the country; like China.
11. The West and part of the East work into the hands of the UFOs, since they are now a days developing the electronic "pres a button" system of armaments, which makes them vulnerable to an assault by UFOs.
12. They must but at any hour be aware , that the physical principles of the propulsion of their vehicles in the atmosphere and in space will be discovered, and thereby their scientific advantage will be in question .-- There remains of course still their technical supremacy. and their unmeasurable operative experiences and skill .

These 12 points do not stand for an assertion that the UFOs are intent on all this and were therefor recognised as a military factor. The contrary is correct.

We said at the beginning: " The Question of.....

That we have done , but the answer can only come from the UFO. themselves."

=====

We thank our associate for his very absorbing and thought provoking outline. The Editor feels the whole answer to it all is the fact as mentioned in the beginning of the article. that they, the UFO, have a plan. and are working to it. Ergo. Find the plan and you have the answer. Observations from the historical records indicate that this plan is not just been put into operation. although certain phases of it are. but that it is one which has been working for an age long time. and appears to be one coinciding with that of the Divine Plan for the Redemption of His people and embracing the whole earth and peoples in its finality. The jig saw pieces fit too well for it not to be. else if not then we face the greatest dilemma of all time. and we have reached an impasse of which there is no way out. We prefer to believe that there is a WAY, a Plan, of which the UFO are very much a part .

NEWS FROM GERMANY .

We are indebted to our associate Carl Hoffman Sen. for the following reports which he kindly translated for us. for our English readers.

" The latest sighting was Aug. 24th 1963 and was entitled : MYSTERIOUS UFOs OVER KLEIN REIFLING. A swarm of satellites flew in and out like fireballs and eerie picture and fascinating. Above high up in the sky stood for four solid hours. three large luminous balls up from 30 to 50 meters in diameter. Suddenly a light signal was flashed from above and the little, (we call them telometer discs) flew in a line up to the " mother ship", on which openings could be observed into which the small discs disappeared , and the large ball went up to meet the other stationary ones and away they went in unison to disappear from sight . This occurrence has been repeated every weekend since. We have examined the caves in question and tomorrow we will analyse our observations. , These sightings have caused quite a stir and the papers have reported it in the usual sarcastic manner , but our Security Service takes it serious. The cave has been closed up by masonry to shut and keep out intruders.

We shall be keenly interested in further news of the above. "Coming from caves" fits in with the many theories that SOME UFO do come from the cavernous parts of the inner earth. May be this is a little evidence their way ?.

The next are culled from many numerous ones sent in the same letter and we regret that space does not permit to print them all.

1914 Sighting reported in Germany .

March 1914 7.30 a.m. While going to school a swishing sound frightened us children and when we looked up we saw a fiery ball the size of a waterball.

The Ball shone orange-red. and had a glittering tail in blueish-white. It went from West to East . This was observed in front of the Auguste- Victoria School in Brambauer near Dortmund in Westfalia.

LIGHTS ON THE MOON .

Kalenborn. Eifel. Germany.

I saw on the 1st Sept. on the dark side of the Moon at 1.30. two lights like explosions . It could have been meteors. but it seems that two at the same time would be unlikely .

STRANGE SKY PHENOMENA.

Dinkelsbuhl; Germany . A strange sky phenomenon was observed over Dinkelsbuhl on 28th Aug. 1962. Three time veil like clouds came very fast over the town and dissolved into many tiny sparks. Suddenly another such cloud appeared in a flowing swinging motion which constantly changed and eventually spread into an irridiscent veil and sparks. At least 50 to 60 which rose very fast into the sky upwards and disappeared. This phenomenon repeated itself three times. Onlookers were like hypnotised people. The next day it was found that another woman had seen the same performance , which cannot be explained as " falling stars"

Following upon the above reports we have recieved a further account of the UFOs from caves etc. giving more details of the above case.

SIGHTINGS OF UFO IN UPPER AUSTRIA COMING FROM CAVES.

Steyr District, Area Klein- Reifling. Report Received. Aug. 27. 1963

" Mr Alexander Santner of Klein- Reifling(about 20 km. south of the town of Steyr) observed with his wife on July 28th 1963 at midnight in a clear sky, a ball shaped object changing luminosity , which moved in a criss-cross manner stopping and starting over the mountain range of Almkogel- Bodenwies and Lang locker Mauer as if it was looking for something. It was visible for an hour and 45 minutes.

Being made attentive through this first sighting, Mr Santner , his wife and 15 year old son had a similar experience on 11th Aug. 1963.

At about midnight Mr Santner was awakened by the restlessness of his farm animals and went outside to investigate, searching around the farm house he saw to his amazement a strange sight. Small fireballs; perhaps 50 of different sizes were seemingly flitting in and out of caves in the mountain side (Arzmäuer). He woke his wife and son and together they observed at 3.28 a.m. a large flying object with torpedo like openings, sinking down to about 1.400 m above ground. then floating and hovering hither and thither between Almkogel and Bodenwies. sending out at intervals light signals (beams) Thereafter it began to collect the small flying objects , still dashing in and out of the caves. It was always turning in the direction of the object approaching it, which fitted into the torpedo like opening, meeting the object by a forward motion and then to suck it in like. This taking up in groups and sending out light signals repeated itself 6 times when at 4.32 a.m. after a cloud bank passed over, the whole apparition disappeared .

Altogether Mr Santner reported until the 24th Aug, eight sightings, which have all been put on record. On this day an investigation team of the Linz section of the Gesellschaft für Interplanetarik, consisting of 5 men and women were aided by Mr Santner in their investigations.

At 21.40 p.m/ . a ball shaped light appeared over the mountains, pulsating in a white-yellow light , flying for about 50 min, and erratic course.- The object was plainly visible in size four times as large as a star of 1st magnitude. Little tongues of pointy flames were licking around the contours of the object.- Two photos were taken ; one of them turned out reasonably well. These observations were also witnessed by two summer guests who happened to be there.

----- BELOW IS THE OFFICIAL REPORT OF THE PARTY.

ON Sept. 7th. 1963 part of the Commission ascended the dangerous mountain wall called Arzmäuer , under the guidance of the Cave-searcher Dr H Siegl, and the caves were entered and searched. The examination took several hours.- After they returned to the farm the investigations were discussed between the leader and the Technical service of the above group, and the Vienna and Linz section combined .

THE RESULTS....

1. The first observations were reported by the caretaker of the Sailer Alm. Mr Alexander Santner .
2. The Upper Austrian Press reported it in their publication .
3. The Linz section of the G.F.I. investigated the sighting of Santner and the Commission own .

Austrian Cave sighting cont. 2

4. When Mr Kohler and his wife drove home that night, their motorbike stopped without any technical fault detectable, but there was a mysterious light above them, When it disappeared the motor worked again .

5. Flying objects were observed again on Aug. 11th. 1963 between Bodenwies (1541 m.) and Alpkogel (1513m.) as on the 28th July 1963 in the same area the Arzmauer caves . Those fireballs could have been ionized gasballs, sent out by the objects above for the purpose of geophysical measurements into the interior of the mountain.

It is not likely that these light balls were directed by radio signals , the large object being under tension .

Observations indicated that the small objects were directed and recalled through the light signals; consisting of needle-like stabs lasting a fraction of a second.. The Linz section is keeping in close contact with Mr Santner for further reports on sightings.

.....

FIERY OBJECT FALLS IN ZIG-ZAG FASHION

Bregenz.- It was a mysterious flying object which on the 24th July 1963 between 21 and 21.30 hrs. was observed coming fluttering down at Partenen in Montafon . It has now been ascertained that the same object has allegedly been seen an hour earlier over the Lake Bodensee. Eyewitnesses agree that it was a glowing object, leaving behind a tail of smoke. The unknown object stood for some time in the sky and moved later in the direction of Kontsanz.

When the same object appeared later on over Partenen; observers had the impression that it sank slowly in a zig-zag fashion to the ground.

But the mystery could not be solved. A patrol of Gendarmery, which was to investigate the place of landing on a slope of the Veretttlasspitze, returned without finding any indication of a landing. (From " Wiener Kurrier" Aug. 1)

NOTE. Due to the many times such fiery objects are claimed to be nose cone parts or other satellite rejects. the above could hardly be dubbed that by any official explanation. such satellite disposals do not hover and then move on.

The above reports from Austria also contain a very full and lengthy account of much UFO activity near Marchfield. which is east and N.E. from Vienna. Significantly it is close to the ramp for iron curtain rocket batteries. Oil wells also are in the close vicinity.

The report sums up with a few pertinent questions as to "What do UFOs want here?2 " What makes this area so attractive to them ? " It could be-----

1. The point where east and west meets as a strategic sector.
2. Perhaps military installations beyond Marchfield . in C.S.S.R are being kept under constant observations and control by the UFOs.
3. Possibly and experimental duel between Radar stations in Slovakia and the UFOs is being carried out.
4. The dryness of Marchfield offers favourable electrical conditions , perhaps the most favourable ones in Europe.
5. May be Austrian military neutrality and the absence of aerial defences is an invitation for UFO visits.
6. Also the OIL and other GEOLOGICAL facts may be so interesting for UFOs.

AUSTRIAN REPORTS CONT 3.

Without doubt the Marchfield offers to us very interesting possibilities and out laboratories and experiments found here in their open confirmation . Stronger than elsewhere can we here grasp with our hands; so to speak, the stark naked reality of the existence of Unidentified Flying Objects.

NEWS FRAGMENTS

Many reports are coming in of the evidence that the Soviet Union have begun experiments in Parapsychology (mental telepathy to you) . Actually it began with experiments between Leningrad and Cambridge (Eng). but the Russians backed out after a while. (Perhaps they got scared the English would read their subconscious mindstoo .) But nevertheless the matter is now treated seriously by the scientific minds of the U.S.S.R.

This may come as a shock to some of our UFO researchers who sneer at those who claim telepathic communication and whose evidence from time to time has proved so helpful even to the saving of lives.

Thank God we have always plugged for an open minded approach. may be we make a few blunders now and then through lack of experience. but at least we dont get stood up with a jolt when something turns out to be very real whic others have considere all bunk. Futher more we dont have to crawl down and decietfully say we knew it all the time but wanted to be cautious and careful. for it is the man who dares to investigate the unknown who makes the greatest discoveries.

CAPE TOWN . FLYING SAUCER IN NORTHERN NATAL .

" DAILY NEWS " DURBAN June 18th 1963 From the Wayfarers Talk of the Day .

Flying Saucer people are inclined to be a little sensitive. Because I won'T say that I believe in these mysterious things, they think I ridicule or bally-hoo them. That is not so. I am prepared to concede they may exist but at the same time I am doubting like Thomas. I want to see one for myself. In fact I wish I could , but somehow or other I never seem to be around when one is sighted, And, according to the letters I get, quite a lot are knocking about .

Some of these letters I dismiss. They savour a little too much of fantasy. Others are so vague that they amount to little more than conjecture, while some reflect sheer imagination . . On the other hand I sometimes get a letter that has a very solid ring about it. One letter in this category is lying on my desk now, I have given it a great deal of consideration and have decided to pass its contents on to you . (CONTINUED ON PAGE 14)

" THE DEAD RAYS" By HANS LAURITZEN .

You have asked, whether I have noticed that during June and July of last year that there was a repeated performances over reservoirs throughout the USA. apparently an interest in fresh water. Well, do you remember that we have also had many reports on UFOs near power stations, near military works, and near other strategic points. NASA reduces the non-explainable reports to 2%. They say that from 9% to 2 % it is just a question of reflections and the like. But what can give such reflections?. Only search lights can give such reflections, when two rays of light are crossing, but in that case the two rays of light should to some extent be visible too. If we had a weapon with invisible rays, which could produce a visible reflection when they met, we could class some reports to this type of reflection.

Now I would like to reveal to you, that this weapon does really exist . Have you ever heard about the DEAD RAY?. Dead-ray weapons work with supersonic waves, or with micro-waves ranging from the low micro-waves up to the infrared waves, and now we have even dead-rays working with visible rays.

In order to give a proof of this information I will give you some names of persons involved with the research for dead-rays , and some names of persons killed with dead -rays. In only one month dead-rays were used two times near the Swiss border. Dr. Heinz Krug and engineer Wolfgang Pilz disappeared completely . We know this, because engineer Hans Kleinmächter escaped.

One of the culprits was arrested. He belonged to the spying service. The spying services and the militaries both in western and eastern countries have lots of dead -ray weapons. They are classified as " TOP=SECRET" in nearly all countries. The Danish defence possesses dead-rays. Before working with dead-rays, danish soldiers have to swear. that they will never disclose any information of what they are going to see. Only a few soldiers have had the opportunity. On a special training field they have to fire at a target, but the bullets never reach the target. At a certain distance f. inst. half the way the bullets slowly fall to the ground. The soldiers are told that they will be ill, if they approach the place. (Certainly they would; they would quite disappear). It all began many years ago. In 1943 at Seefeld conference in the Alps of the Bayern ; the presidents were Sauter and von Weizacker, and present were Joos, Hanle, Geiger, Mattauch, Rother and Hoffman, all from the Kaiser Wilhelm Institute in Berlin . Schieboldt proposed that through the interaction of two infra red rays, it would be possible to let bombs explode in all the planes from the Allies.

Development of this weapon was carried out at the Kaiser Wilhelm Institute in Berlin. It was destroyed in the air raids. Scientist Zimmermann continued. Hitler gave him a research centre at Lefer in Austria. He worked both with supersonic waves and infra red waves and with combinations of them and by aid of gas he created sounds with 300,000 vibrations the second. By means of parabolic mirrors the waves are guided to the object f. inst. a human; and apart from superficial burnings nothing can be seen. but all the inner organs are destroyed. The dead-rays were used for the first time in practice the night between the 29th and 30th Aug. 1944 against Russian soldiers in the Eastern Carpathians. The Russians fell like puppets, burned, sometimes only an arm or a leg left. sometimes quite dissolved not leaving the slightest trace. Nevertheless the Russians took the whole of the area with the intact parabolic mirrors and the miniature - browings apparatus.

Dead-Rays Cont 2.

In 1945 the Russians took the Kaiser Wilhelm Institute in Berlin after advice from the Russian atomic scientist Kapitzka; and they got Gottrapp and Zimmermann alive, so they were well ahead already at that time. Fortunately the Americans found the archives of Schiolboldt.

After the armistice the Americans did not pay much attention to the dead-rays. The Russians worked hard on the perfection of the dead-rays and such weapons. The German, Heide worked with the Russian Dead-rays.

In 1949 he fled through Greece to Paris, together with engineer Wintersdorf, and continued to The U.S.A. . He told the Americans that the Russian dead-ray was a violet flame 30 centimeters in diameter issued from a tube like a big telescope containing a valve of electrons resembling a valve of X rays.

He declared: " I can construct a portable apparatus containing a producer of electrons accelerated by magnetic fields with high frequencies with changing phases . At the end of their paths the electrons have a terrific velocity and they are projected against an anticathode of tungsten in an ampoule resembling a Crooke's ampoule." Heide told that they had seen the sea near Alaska boiling and the Aral Sea be covered with ice.

The F.B.I. was very interested. In 1951 the U.S. Signal Corp had generators making sound waves with 20,000,000 vibrations the second, sufficient for killing the strongest animals in 10 seconds. An agent coming from Russia told that the scientists working there had dead-rays working at great distances. Do you remember the many reports on UFOs during the Korean War? Often the type of UFOs that NASA calls just a kind of reflection.

Were dead-ray weapons used during the Korean War?. The Korean War was only a big experiment for dead-rays. The Russian MIG planes were equipped with dead-rays.

The UN soldiers and the UN pilots learned the effects of them. The UN planes exploded or fell and the pilots were burned or disappeared. By the 10th of Dec. 1951 the American pilots refused to fly any more in Korea. if they could not get a defence against the dead-rays. 900 planes were lost against 300 communists.

At Princeton and Columbia Un. scientists worked day and night. Matador planes without pilots were sent up against the MIGs, but they exploded into small bits. Finally UN planes equipped with carbon bombs with tetrachlore on stratic points, and ultra-light metal protected the cockpit. Secret groups worked at the University of Columbia and Mr. Rainwater; once in the Atlantic south to U.S.A.

52 technicians among them General Cullen, disappeared with some of the best anti-dead-rays equipment. Several UFO papers have reported of this place where planes and ships disappear without trace; this is the US experimental place for dead-rays. The Soviet Union began with Zimmermann and soon created a net work along all borders. This network of dead-rays was in action continually and no plane could pass without exploding. The US long distance bombing

planes with atomic and hydrogen bombs were useless, as they would explode at the border and never reach their goal. At that time USA had not yet intercontinental rockets. Why did the Soviet not use that load?. A certain Mr. Barymaine thought that the people in the so called free world should learn the truth. and he had printed in the Evening Standard the truth about the insuperable wall of dead-rays ranging from Stettin to Trieste.

At once official denials from the highest military authorities said that Barymaine was a crackpot and that all he said were wild fantasies .

Dead-Rays Cont. 3.

Everybody in the Western world and the Usa believed the authorities had told the truth. But the Military and authorities knew that they told the biggest lie in order to bewilder the people of the free world.

For many years the Russian generals and government authorities declared. that if it came to an atomic war with the west. the western countries would be completely destroyed whereas Russia would easily survive.

At once official denials from the highest military and civilian authorities said that the Russians were also crackpots and that of course they would be destroyed too. Everybody in the US and the Western Europe believed and still believe that the authorities told the truth.

It is with this in mind that Kennedy said that we should take our view of the Soviet Union up to a renewed consideration. Maybe they really want peace over there. Now at the University of Princeton Doctor Erbert H. Dicke perfected

the dead-ray weapons for the US. And he continued his work for Hughes Aircraft Company at Culver City. He created the so called "Dicke ray". In the apparatus the waves are issued from an artificial ruby. It was an improvement of the MASER generator. It is now generally known as LIGHT AMPLIFICATION by STIMULATED EMISSION of RADIATIONS. or LASER rays.

The fact that such visible rays can burn men and even hard diamonds away is to some extent understandable and does not spread horror and panic. But that the invisible rays issued of small handy weapons can make you disappear from the surface of the earth without leaving any trace cannot but strike you with a feeling of horror. Of course the hydrogen bomb is terrible, but a weapon destroying single individuals not wanted by the authorities (whom they might be) is too hard to face for many people. Therefore dead-rays are classified as TOP SECRET.

The previously mentioned attack near the Swiss border caught the attention of scientists and academicians all over the western hemisphere.

In the middle of February 1963 more than a 1000 scientists kept a meeting at the Sorbonne University in Paris in order to discuss all problems connected with dead-rays and the secret keeping of their existence.

Several UFO papers have reported, that the spy plane of Powells was hit by a UFO. The Military and Civil authorities in both the Soviet and the West know, That Powells was shot down by means of improved dead-rays.

If you study Powells report and the reports from the Korean War, it is evident. When Powells met with the Russian farmers, they asked him whether he had a companion by showing two fingers. Powells showed one finger to tell he was alone. Then the farmers pointed at the place in the sky where the plane had been. An orange colored object hovered there. A UFO. Yes; and the typical description of reflection classified as Non UFO by NASA, because they know it is a dead-ray reflection, but they cannot say it openly.

By the way the reflection does not appear because the two rays become visible when they meet, but because the molecules when hit of two rays are activated to send out light. Strange enough both Americans and Russians agree. that the plane was shot down by means of rockets. Now I just ask you, if you had the responsibility of our society, and you knew that it would cause serious trouble and even panic if the people were told about the dead-rays, and especially if they were told, that during the fifties the military and civil authorities, whose reliability and honesty are a foundation of their life, told

them something to be the truth, even if they were aware that it was not the truth. Would they not take the same decision i.e. to wait 5 to 10 years more and then hope, that the people will say; it is not of much importance now that people back in the fifties, 20 years ago could not rely on their authorities, now we must think of the future, now we can rely on our present authorities. (How can they be sure of that ?)

UFOs are not the only secret objects for NASA and other authorities, dead-rays also are not the only ones for both the authorities in Russia and US possess today such challenging information that they dare not release it. You can find more information re dead-rays in issue No 6 June 1963 of Technique Nouvelles on page 11 an article by F. Gondou called LE RAYON DE LA MORT FAIT DE NOUVEAU PARLER DE LUI.

EDITORIAL COMMENT

The above facts when fully investigated may throw a great deal of light on the nasty incidents which have worried many UFO investigators. who endeavour to cling to the conception that they are all friendly. and who try to avoid discussing these inconvenient happenings. which have bordered on belligerent attack. Now at last we do have some practical explanation for the so called "baddies" and as some have asserted for many years that these negative force elements have originated here on earth. may well be the answer to it all. in the above dead-rays. putting together the places where so many of the "accidents" have occurred and comparing them with the above places indicated. they certainly fit into a pattern. This does not however take away from the UFOs which have demonstrated quite the opposite in their approach that of a peaceful intention. which number into thousands of observations of such craft in which no sign of hostility was given. and the only charge against such was the fouling up temporarily of engines and ignitions of cars etc.

May be when we learn more about some of the TOP SECRET stuff (if ever we do) many of the mystery answers will be solved as to the hostile UFO which after all are in the minority.

We are greatly indebted again to Hans for his article which arrived with others and where space permits we will print from time to time.

SOUTH AFRICAN REPORT CONT. FROM PAGE 9

It was from a Durban woman who was on a holiday in the "bundu" in Northern Natal. With two other adults she was travelling to a village about 20 miles away to see a cinema show. They were miles from anywhere with not a farmhouse or kraal in sight when they saw a light coming round the hill towards them. "We stopped the car and watched as it came closer and closer to us" she writes.

EBERIE EXPERIENCE ... At 200 to 300 yards distance and at a height of 300 ft. it stopped and in the glow of its own light they saw the outline of its circular shape and dome. It stayed in the same place for about 10 minutes. and then moved away until it was lost to view behind the hill.

Although it remained off the ground and stationary in the air, there was no sound but they all felt a peculiar sensation of being charged with electricity and even semi-paralysed. "I know this sounds like space-fiction" she writes, "but I assure you it is absolutely true".

The cinema, she says "was a dreary affair after that experience" and the next day they kept on reliving the whole experience. But although there were 40 people staying at the same country hotel they did not tell anyone of their experience. "None of us wanted to be laughed at" she adds, "not even behind our backs".

THREE GOOD REASONS ... This correspondent, who asked me to preserve her anonymity, says she delayed in writing me for three reasons.

The first is that she views all letter writing as an abominable chore and laziness is her middle name. The second is that people are becoming chary of telling even members of their own family or their best friends about anything unusual they have seen in the sky, and the third reason is that as the serious-minded person she has no desire to be grouped with the sensation-seekers or the emotional. "I always believe in having an open mind about all phenomena", she writes, "as I feel that just because a logical, scientific explanation is not available it doesn't mean that an answer is not around the corner."

LOGICAL SEQUEL... "To quote one aspect of matters inexplicable: Extra-sensory perception. It has been a subject of intensive research in many universities, and scientists and medical men are beginning to concede that some men can do some things which takes them out of the sphere of the average, and puts them in danger of breaking the witchcraft laws. Returning to Flying Saucers, I believe that if man is anxious to indulge in space-travel and satisfy his curiosity about the Moon, Mars and Venus, then there is no reason why inhabitants on some other planet couldn't be curious about our little "ball of mud". Although our astronomers have gathered quite a lot of information about our solar system since Galileo, their knowledge and their range of instruments is still so very limited that no one can prove that there isn't highly intelligent life on planets as yet unseen or outside our solar system.

Having these thoughts, I also felt that although not sceptical, seeing is believing, and so it happened."

RICHARD OGDEN ATTACKS ADAMSKI AND HONEY.

The following letter impart was recieved by the Editor with the request for publication . The Editor in accordance with the open forum principles of this magazine accedes to this request, with the understanding that the views expressed are those of the writer Mr. Ogden. and not necessarily those of the Editor. . .

" Mr Ogden says.. " Know this ; George Adamski did not meet any holy angels but is in the service of the devil. Those saucers contacted by Mr Adamski came from the inner earth, Hades. The Devil has no objection to using the Bible or the words of Jesus if they should serve his purpose. I remind you of the case of Gloria Lee. She claimed to have contacted a being from Jupiter and through him wrote the book "Why we are Here " There are many religious passages in the book . Knowing her religious background, she was approached and decieved into thinking she was communicating with an angel of God. Once her confidence was gained , she was destroyed by getting her to fast herself to death . Let this serve as a warning that none of the contactees who have written books have been in communication with saucers from outer space but rather those which originate here inside the earth "

" Do not be fooled by Adamski when he says that Jesus came from Venus, as he did in " Inside The Space Ships " . It may surprise you to know that I have evidence on my files that George Adamski does NOT believe in Jesus Christ or God, but is an atheist. One would not come to this conclusion by reading his books but one must know him personally as I know him. As you know Adamski did not write his books himself but they were written through a ghost writer. Thus the Adamski of the book is not the same as the Adamski one meets in person."

" No one could have been more loyal to him than his secretary, Lucy McGinnis and yet after many years of association with Mr Adamski, she left him and will no longer have anything more to do with him because he is serving the Devil. After Lucy left him , Mr Adamski formed a close association with Mr Carol Honey. Mr Honey published a Bulletin , which published Adamski's articles. Now Mr Honey is no longer having anything to do with Adamski. Honey like Adamski is an atheist. I quote proof in his letter to me of Oct. 16. 1963

" Anyone who teaches religion is actually using it to make a living as far as I can see, since all religion is man made and based on myths." "

Honey used to live in Seattle and I have a friend who knew him. At that time he was very religious, but this friend told me that Adamski had turned him against religion . Thus. this explains his statement of Oct 16th.

When I was writing THE CASE FOR GEORGE ADAMSKI'S CONTACTS WITH FLYING SAUCERS, his secretary . Lucy. sent me a 22 page manuscript. Another copy was sent to Mr Trench, then Editor of the British Flying Saucer Review. Mr. Trench published only six pages under the title WHO IS KEEPING THE TRUTH FROM COMING OUT ASKS GEORGE ADAMSKI?. Since Mr Trench did not plan to publish all of the manuscript, I recieved permission from him to publish the entire manuscript as an introduction to my book. I also wrote a letter to George Adamski. His secretary typed the reply and Adamski signed the letter giving me permission to use the manuscript as the introduction to my book.

Then after a considerable time interval of trying to get a publisher, I published it myself and sent a copy to Carol Honey. He wrote back saying Adamski didn't write the introduction . I wrote Adamski and he denied now having written the manuscript, a part of which was publshed by Trench. I sent bothe Lucy and Adamski photostatic copies of his letter giving me permission to use the

manuscript. Lucy wrote Adamski telling him to admit he wrote it, but Adamski still refused. This was after Lucy had left him. He was obviously lying now. It was a question of changing his mind about having me use the manuscript, so in an attempt to stop me he denied now he wrote it. Mr Adamski went on the Long John show in New York and before a vast radio audience discredited my book and called me a liar and said that he didn't write the manuscript used as the introduction. This is after I had done so much to defend him. Like Miss Gloria Lee's being from Jupiter. they sweet talk you at first and do everything to gain your confidence. Once they have it, they try to destroy you. It is part of the Devil's game. "

Mr Ogden now has given permission to reveal that he was the writer of the article AN AMAZING STORY WHICH APPEARED IN THE SAUCER RECORD some time back

IN FAIRNESS TO GEORGE ADAMSKI AND MR HONEY THESE PAGES ARE OPEN TO REPLY TO THE ABOVE STATEMENTS AND CHARGES LAID BY MR. OGDEN. .

One thing however is pertinent. and that is If Mr Trench also received a full copy of the manuscript in question then this would prove beyond doubt that George Adamski Did actually write such and Mr Ogdens charges are correct. The fact that he published part of it in the Flying Saucer Review seems to indicate that this was so.

One thing however did impress the Editor in that he says the Adamski of the book was not the same man in thought and action.

This fact was the consensus of opinion of 98p.c. of folk who met him in South Australia when he visited here.

Following the above lines by Mr Ogden he continues with some amazing facts about the assassination of President Kennedy. and the story behind it. as well as facts he claims has been suppressed since. diplomacy at this time however makes it in the opinion of the Editor to publish same. but he is not without keeping them well in mind.

He quotes regarding the alleged curse on the Presidents of the USA. The curse was made by Pres. Martin Van Buren when he lost the election to Harrison in 1840. He was so angered by his defeat that he pointed to a painting of the White House and said " You have sold out to gold. A curse upon your head and of your house every generation" The colonial days of a generation being 20 years. Hence every President elected every 20 years since 1840 dies in office and every other one dies in his first term.

Harrison 1840 ...first term.

Lincoln 1860

Garfield 1880 first term

McKinley 1900

Harding 1920 first term

Roosevelt 1940

Kennedy. 1960 first term..

WHAT OF 1980 ?

In our own Editorial of this issue. written long before the receipt of the above letter. we predicted that stirring events would come out of the above assassination. and the subsequent events which will follow it.

This more than confirms our prediction as does the yet unprinted facts Mr Ogden has presented to us. KEEP YOUR EYES ON THE USA.
